ALUMINIUM DRAWN PROFILES BY GUTMANN ALUMINIUM DRAHT GMBH

we wire the world

Your benefit when you use GUTMANN ALUMINIUM DRAWN PROFILES

- Small dimensions starting at 1mm x 1mm / 0.003937 x 0.003937 in with close tolerances (weight per meter of 2,7g/m to over 700g/m / weight per in of 0.005952 lb/in to over 1.543236 lb/in)
- Large range of alloys with different mechanical properties
- Low partial costs for tooling
- Sample and small quantities available within a very short lead time
- Flexible packing formats
- Coils without any wire to wire welding
- ISO certified company: DIN ISO TS 16949, DIN ISO 9001 and 14001
- Laboratory tests like mechanical testing, metallographic testing and spectral analyses
- Cleaning
- Different mechanical conditions due to special heat treatments
- Exact lengths to save scrap at the cutting process
- One-Stop Solution: profiles & sawn bars

GUTMANN ALUMINIUM DRAHT GMBH is one of the leading producers of DRAWN WIRE and PROFILES made of aluminium and wrought aluminium alloys

We produce aluminum wires and drawn profiles for various industrial sectors.

Please do not hesitate to contact us for further questions and requirements.
